

Rotary

Rail & Water Tour

Fundraising for Rotary International Water Project

Represent Your State in this Special Tour

water@LaBelleRotary.org
www.LaBelleRotary.org

From coast to coast the United States is blessed with abundant clean water for its people. Rotarians celebrate America's blessing by sharing the gift of clean, healthy water with others around the world.

If your club is along or near the planned Rail and Water route, you are invited to host a very special one-day visit and presentation by French exchange student Cora Meneceur between May 10th and June 28th, describing Rotary clean water humanitarian projects around the world.

Contact us to schedule a stopover and a presentation at your club.

If your club is on or near the planned route then please contact us to schedule a visit to your club

"I am a Masters Degree Student at ESC Saint Etienne Business College in France. Until the end of June, I am an intern for the Rotary District 6960 Water Projects Committee, here to learn about and assist U.S non-profit service organizations"
